

## Street Closure Support Form

Please inform all properties (residential and commercial) of the proposed Play Street and gather the names and or addresses of supporters and objectors.

Ideally you will need to speak to as many households/businesses on the road/street as possible (as well as any households/businesses that have access via your proposed Play Street area). In order to proceed we need at least 70% of all households to respond with signatures, both supporters AND anyone who objects. **Please do not be deterred if you receive objections:** officers need to report the level of objections for approval purposes and it is better to know this in advance rather than later during the public consultation. Moreover, obtaining more signatures will be more representative of the public consultation. Officers will then assess the level of support, as with all our consultations, before making a recommendation.

	Date	Name	Address	I can volunteer	Sign for support	Reason, if objecting
